## A Blue Ant Problem!

- (1) Make a home that would fit exactly 24 ants.
- (2) Draw the home on **this** sheet.
- (3) Write a number sentence to add up the ants in the different rooms.
- (4) Solve! Prove that you fit exactly 24 ants.

A large empty rectangular box with a black border, intended for drawing a home for ants and writing a number sentence to solve the problem.
